

JOYAL AUGUSTIN X

ServiceNow Developer | Certified System Administrator (CSA) | Certified Application Developer (CAD)

Karur, Tamil Nadu | 9787956419 | joylaugustin17@gmail.com | [Linkedin](#) | [Portfolio](#) | [Github](#)

PROFESSIONAL SUMMARY

ServiceNow Certified System Administrator (CSA) and Certified Application Developer (CAD) with hands-on project experience building enterprise workflow applications using Flow Designer, Business Rules, Client Scripts, UI Policies, and Service Catalog. As a Engineering graduate with a strong analytical foundation, quick learner, and effective communicator, seeking to launch a career as a ServiceNow Developer.

CORE SKILLS

- ServiceNow: CSA, CAD, Flow Designer, Business Rules, Client Scripts, Script Includes, UI/Data Policies, Service Catalog, Catalog Items, Notifications, ACL, Import Sets, Transform Maps, Glide Record, ITSM
- Programming & Web: JavaScript (Basics), Java, HTML, CSS
- Tools & Database: Visual Studio Code, Git, GitHub, MySQL

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- NPTEL - Cloud Computing
- Technovia (Hackathon)
- District level “THE CHIEF MINISTER’S TROPHY” in Basketball

PROJECTS

Automated Network Management - *ServiceNow Application*

- Built a ServiceNow application to automate network request handling — from intake through approval routing — reducing manual processing steps.
- **GitHub:** github.com/Joyal-2005/Automated-Network-Request-Management---Servicenow

Student Leave Management System - *ServiceNow Application*

- Built a custom application with purpose-built tables, forms, and modules to manage end-to-end student leave requests.
- Automated the multi-level approval workflow using Flow Designer, Client Scripts, UI Policies, Business Rules, and notifications.

Employee Onboarding Application — *ServiceNow Application*

- Designed a Catalog Item-driven onboarding workflow that automated HR and IT task assignment across departments.
- Implemented role-based access control and automated email notifications to keep stakeholders informed in real time.

Prevention and Monitoring of Child Abuse — *Embedded Systems Project*

- Developed an IoT-based monitoring system delivering real-time emergency alerts using rule-based automation logic.

INTERNSHIP EXPERIENCE

VLSI Intern - Tessolve (Taras Systems and Solutions)

- Learned and applied Verilog HDL, SystemVerilog, and UVM methodologies for digital design and verification.
- Contributed to project-based development and debugging activities alongside senior engineers.
